[Nonresponsive based on revised scope]

I thought we mixed a segment in the afternoon? See your message below

Thanks  
Chris

Will do. Segment 12-6 was moved to the stockpile and 12-7 was moved yesterday

Good Morning [Nonresponsive based on revised scope]

During truck load out today, can you please update the progress chart and the segment map?

Also can you please verify which segment was moved and which segment was mixed yesterday?

Once truck loading is complete, I would like you to accompany me in Property 1 to verify some of the south grids

Thank you  
Chris
